Re: Denial of Request to Close File, W. W. Clyde & Company, Piute Dam Quarry, S/031/008,
Piute County, Utah

Dear Mr. Sumsion:

On September 22, 2003, we received your request to inspect and close the Piute Dam Quarry file in lieu of payment of the annual permit fees. This letter is to notify you that your request is being denied. An inspection performed on August 6, 2003, indicated that the revegetation has not yet been established; therefore, according to rule, we are unable to release the site at this time.

It is our recommendation that you continue to monitor this site for revegetation success. Due to the drought this past year, the seed may not have had a chance to germinate. If the vegetation is not established during the next growing season, it may be necessary to reseed the site again.

The annual fees remain due and are payable within 30 days. Another billing statement is enclosed for this purpose. When the site meets the revegetation standards (70% of the surrounding area), you may again notify us in writing requesting release of the project.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5310. We hope the site will be ready for release this coming spring.

Sincerely,

Lynn Kunzler
Senior Reclamation Biologist
